REPLACE T12s

Replace 4-foot T12s - Rebate per fixture

Note: This table was built using a 144W T12 fixture. Higher or lower existing total fixture wattages would change the rebate amounts. Higher or lower new total fixture wattages from the ones listed would change the rebate amount as well. In general, projects with the largest wattage reductions will have the largest rebates. Rebate amounts vary due to kilowatt-hour (kWh) savings differences in different building spaces and types.

NEW FIXTURE TYPE	Lodging	Education	Miscellaneous	Warehouse	Retail	Office	Restaurant
