TAKE CHARGE™

Appalachian Power \$25 Rebate

Get \$25 back from Appalachian Power on your purchase of a current ENERGY STAR certified water dispenser. This rebate is good for purchases made 1/1/20 through 12/31/21. Limit one rebate per residential electric account per calendar year. Funding for this program is limited.

Please include a copy of your dated sales receipt and/or invoice from a participating retailer showing the manufacturer, model number and price of the ENERGY STAR certified water dispenser purchased. Incomplete information will delay or disqualify your rebate. All rebate requests must be postmarked no later than January 15, 2022. Please allow up to eight weeks for rebate processing. Some limitations may apply. For more information, call 888-261-4567 or email takecharge@clearesult.com.

Did You Know?

ENERGY STAR certified water coolers use about 30 percent less energy than conventional models. This difference could amount to an energy savings of nearly \$70 over the life of the unit.

Water coolers can offer hot, cold and room temperature water in a variety of new ways, including:

- **Bottom-Loading Bottled Water** units allow you to install the bottled water, spout up, at the bottom of the unit. This eliminates the heavy lifting and occasional spills of conventional top-loading units.
- **Point of Use** units avoid bottled water by using a dedicated water line and filtering systems.
- **On Demand** units do not store conditioned water in internal tanks but provide hot and cool water upon request, thereby saving energy.

Required Data

Appalachian Power account number: _____
